<p><b>Heat-proofing health products: Adapting to a hotter planet</b></p> <p><a href="#">Click here to download</a></p>	<p>This knowledge paper outlines how rising heat and humidity threaten the quality, safety and performance of essential health products across their lifecycle. It synthesises current evidence and practical solutions to help ensure that medicines, diagnostics and other health tools remain effective and accessible as the planet warms.</p>	<p>Unitaid</p>
<p><b>Climate Resilience Toolkit for Health Centers in the Philippines</b></p> <p><a href="#">Click here to download</a></p>	<p>This toolkit provides a range of resources for health providers, facility administrators, patients and community members. Launched with the Philippines Department of Health, the toolkit was developed with input from more than 35 local organisations in the Philippines.</p>	<p>Americares</p>
<p><b>Investing in the health and well-being of women, children and adolescents</b></p> <p><a href="#">Click here to download</a></p>	<p>Interventions that improve women's, children's and adolescents' health (WCAH) and well-being and address inequalities have a ripple effect on communities and economies throughout the life course and across generations. Yet we continue to see too little progress in WCAH. This brief makes the case for investing in WCAH.</p>	<p>PMNCH, WHO, AFD, Fondation Botnar, University of Southampton, Global Financing Facility, Heidelberg Faculty of Medicine.</p>
<p><b>Extreme Heat Is Putting Maternal, Newborn And Child Health At Risk</b></p> <p><a href="#">Click here to download</a></p>	<p>ICM's commitment to support a system-wide approach to addressing the impact of extreme heat on MNCH and health workers.</p>	<p>International Confederation of Midwives</p>
<p><b>Heat and health fact sheet</b></p> <p><a href="#">Click here to download</a></p>	<p>A World Health Organization fact sheet describing how extreme heat impacts health, what actions the public can take, and outlining the WHO response</p>	<p>World Health Organization</p>
<p><b>Report of a scoping meeting for the selection of indicators to monitor the impact of extreme heat on maternal, newborn and child health</b></p> <p><a href="#">Click here to download</a></p>	<p>This document summarizes the first meeting of an expert group convened in April 2023 to identify needs and next steps to reach consensus on a set of priority indicators to monitor the impacts of extreme heat on MNCH as well as on potential thresholds for heat-health early warning systems that are specific to pregnant and postpartum women, newborns and infants.</p>	<p>World Health Organization</p>
